

Team 5 – Sprint 6 Planning Report

Emmi Korhonen, Emil Blumenthal (Scrum master), Musa Sadiq Musa, Verner Etola

Sprint 6 Goals:

Functional Tasks:

- Expand E2E and unit test to reach above 80% coverage
- Fix issues found by SonarQube to bring them down to below 5
- Add a language that reads from right-to-left

Non-Functional Tasks:

- Conduct acceptance testing and report results
- Conduct Heuristic evaluation of your final project
- Update project documentation and GitHub with any relevant changes made during the sprint.
- Perform performance testing to assess the system's responsiveness under various loads.
- Document required technical specifications and system architecture changes based on the test results.

Sprint Success Measurement

- Task completion: All sprint tasks are completed.
- Sprint backlog status: User stories are planned and tracked
- Obstacles: Document challenges faced and outline solutions.
