Team 5 – Sprint 5 Planning Report

(Emmi Korhonen - Scrum Master, Emil Blumenthal, Musa Sadiq Musa, Verner Etola)

Sprint 5 Goals:

- **User Interface Localization**
- **Kurdish translations**
- **Vietnamese translations**
- **Language preference stored in database**
- **Tests for language selecting**
- **Update to documentation**
- **Review report**

Planned Tasks:

User interface Localization

- Static text is localized in the user interface and there is an option to change language.

Kurdish Translations

- Translate static texts to Kurdish.

Vietnamese Translations

- Translate static text to Vietnamese.

Language prefrence stored in database

- Create a language enum (EN, VN, KU) and add it as a type to a new "language" column on the user's table.

Tests for language selecting

- E2E tests for testing of localization features
- Additional unit tests if needed
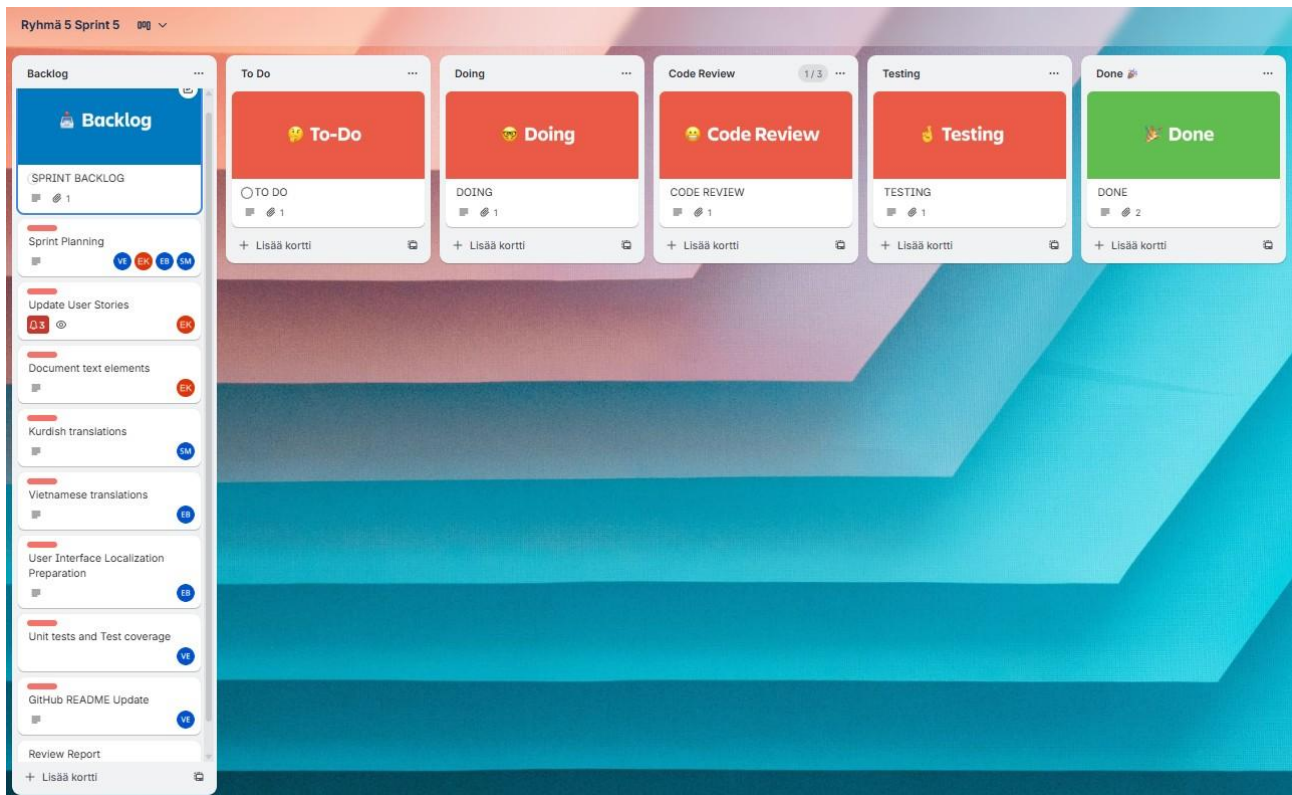

Update to documentation

- Update README to reflect new localization changes.

Review report

- Conduct sprint review documenting progress, challenges, and improvements.
- Prepare for the nest Sprint 6, focusing on database localization (schema changes, data model updates for multilingual content).

Sprint Success Measurement

- **Task completion:** All sprint tasks are completed.
- **Sprint backlog status:** User stories are planned and tracked.
- **Obstacles:** Document challenges faced and outline solutions.
