Team 5 – Sprint 1 review

(Emmi Korhonen, Verner Etola, Emil Blumenthal, Musa Sadiq)

What has been done:

- We started with product planning, set up communication channels and created the product vision document.
- Created a Trello board and populated the product backlog.
- We divided the tasks into sprint 1 between the members.
- We created a Technology stack document also a project plan.
- We created a Figma prototype for the UI.
- Set up for the repository.

What is in progress:

- Database schema
- UML and Database diagrams
- Development of app (Sprint 2)

Obstacles:

- All members of the project have day jobs so between work, school and project work there is not a lot of time.
